Jan Feb Mar Apr May Jun Note

3. Identify all capital improvements and equipment replacements that are currently programmed for, and are in the GSA system. Coordinate with HEB, RECD and GSA in working up a complete list of all projects that are in the working stages and projects in the planning stages. Prepare a complete list of these projects and establish guidelines that are agreeable to all parties concerned to insure this list is maintained on a current basis at all times.

4. Identify the responsible officer for each project (Project Officer). Determine source of funds; such as, GSA, Agency, etc., dollar amount of each project. Establish a starting and estimated completion date for each project on the list.

5. Prepare a detailed plan that will include all the steps outlined above and put this objective into a finished product.
